Dear Sir's

I don't feel that it is in the best interest of all of the users of Microsoft OS what the nine states have in mind is, that they are not in this fiasco with the consumer in mind at all, and we all know that there objective is the dollar bill. Who would benefit from all of this? certainly not the consumer. Microsoft is a great and innovative company and there products are of the highest quality. As a consumer, leave Microsoft alone.

as ever
